

Tapan Ghataliya

Full-Stack developer

+919099221192 ◇ tapanprajapati22@gmail.com ◇ Ahmedabad, Gujarat, India ◇ [LinkedIn](#) ◇ [Github](#) ◇ [Portfolio](#)

SUMMARY

Experienced Front End cum Full Stack Developer with around 3 years in web development, specializing in **JavaScript, React.js, Node.js, Express.js, MongoDB and MySQL**. and 2 years as an Android Developer delivering mobile solutions. Skilled in building and deploying robust applications with tools like Webpack. Proven ability to implement complex features and optimize performance using lazy loading and SSR techniques and API integration. I have successfully deployed projects on platforms such as Netlify, Render, and Vercel, ensuring optimized performance and seamless accessibility. Passionate about creating efficient and scalable web solutions.

SKILLS

Programming Language Javascript

Technologies and Frameworks ReactJS, Vanilla.js, Node.js, Express.js, MaterialUI, Bootstrap, webpack, Tailwind CSS, REST API Services

Tools Jira, Postman, Figma, Vercel, Render, Netlify

Database MongoDB, MySQL

Version Control Git, Bitbucket, Gitlab

IDEs Visual studio code, Android studio

EXPERIENCE

Frontend developer

Oct '22 — Jun '23

Mindfire Solution

Noida, India

- Design, develop, and maintain user-friendly web applications using React.js, ensuring high performance and responsiveness.
- Create reusable and modular components using React.js and manage application state effectively with tools such as Redux or Context API.
- Work closely with UI/UX designers and backend developers to deliver seamless and cohesive user experiences. Implemented efficient code practices, resulting in improved application performance by 45%.
- Optimized frontend as well as backend performance by leveraging advanced caching techniques and reducing load times and concurrent request handling.

Frontend developer

Apr '21 — Sep '22

Mirraw.com

Mumbai, India

- Design and implement responsive and visually appealing user interfaces for the Mirraw.com online shopping platform, ensuring a seamless shopping experience across devices.
- Collaborate with backend developers to integrate RESTful APIs, ensuring efficient data handling and synchronization across the platform.
- Implemented efficient code practices, resulting in improved application performance by 25%.
- Ensure that all pages are fully responsive and optimized for performance on a variety of devices, including mobile, tablet, and desktop.
- Conducted code reviews and provided constructive feedback to ensure code quality and adherence to best practices.

Android developer

Jul '18 — Jul '20

Windzoon Technologies

Ahmedabad, India

- Design and development of custom Android applications tailored to client needs, ensuring high-quality and scalable solutions.
- Serve as the primary point of contact for clients, providing regular updates, gathering feedback, and ensuring that their requirements are fully understood and met.
- Collaborate with clients to gather detailed requirements, understanding their business goals, and translating them into technical specifications for development.
- Design intuitive and user-friendly interfaces, ensuring that applications are visually appealing and provide a seamless user experience.
- Provide post-deployment support to clients, addressing any issues and making necessary updates or improvements based on client feedback.
- Keep up-to-date with the latest Android development trends, tools, and technologies to continuously improve the quality and performance of applications.

Internship

Jul '17 — Jul '18

Rosix Technology

Ahmedabad, India

- Supported the development team in designing and building Android applications, contributing to various stages of the development lifecycle.

- Worked closely with senior developers to learn best practices, understand project requirements, and implement assigned tasks.
- Assisted in designing user interfaces, ensuring that they were intuitive and aligned with the project's requirements.
- Participated in debugging and testing activities, identifying and fixing bugs under the guidance of experienced developers.
- Actively learn new tools, frameworks, and methodologies related to Android development, and apply this knowledge to real-world projects.
- Assisted in gathering and analyzing project requirements, helping to translate them into actionable development tasks.
- Supported the deployment process of applications, ensuring that all components were properly integrated and functional.
- Provided valuable contributions to various projects, ensuring that deliverables met quality standards and deadlines.

PROJECTS

Mirraw.com, Mirraw.com [Link](#)

- **Skills:** React.js, HTML, CSS , MaterialUI, Redux,
Tools: VS Code, GitHub
- Developed and maintained the Mirraw online shopping application using React.js, JavaScript, and Material-UI for seamless UI components. Utilized Axios for efficient data fetching and API integration, ensuring dynamic and responsive user experience.

QKart, Mindfire solution [Link](#)

- **Skills:** React.js, HTML, CSS , Bootstrap,
Tools: VS Code, GitHub
- Developed the QKart e-commerce application using React.js, JavaScript, and Material-UI for a smooth and responsive UI. Leveraged Axios for efficient data fetching and implemented robust API error handling to ensure a seamless user experience.

Health Management System, Mindfire Solution [Link](#)

- **Skills:** React.js, Node.js, Express.js, authentication, authorization,
Tools: VS Code, GitHub
- Developed the **admin side** of the website to facilitate content management.
- Its aims to provide users with a platform for their health-related information efficiently. The system includes features such as authentication, health record management, appointment scheduling.

QTripDynamic, Miindfire Solution [Link](#)

- - **Skills:** React.js, HTML, CSS , Bootstrap, Redux, Hooks, Axios
 - **Tools:** VS Code, GitHub
- QTrip is a travel website aimed at travelers looking for a multitude of adventures in different cities.

EDUCATION

B.E in Computer Engineering, C U SHAH ENGINEERING & TECHNOLOGY (GPA: 6.5)

Jul '13 — Jun '17
Wadhwan, India

- Developed an Android mobile app during my studies, applying hands-on training to create a functional and user-friendly application. Gained experience in Android development, including design, implementation, and testing.

Diploma in Computer Engineering, C U SHAH ENGINEERING & TECHNOLOGY (GPA: 5.7)

May '09 — Jun '13
Wadhwan, India

- Developed a web application for the ceramic industry as a final year project, utilizing HTML and CSS to display comprehensive product information and industry details. Created an intuitive and visually appealing interface to enhance user experience and accessibility.
